

# D20

<b>Movements</b>	: 180 x 140 x 100 mm
<b>Control</b>	: High Speed YLS
<b>Axis motors</b>	: AC Servo 400 W
<b>Spindle power</b>	: 0.24 kW
<b>Spindle RPM</b>	: 60.000 rpm
<b>Number of blocks</b>	: 1 pcs
<b>Tool change</b>	: 6 pcs
<b>Tool lenght switch</b>	: Standard
<b>Weight</b>	: 138 kg
<b>Dimensions</b>	: 50 x 50 x 80 cm

**Options :**

- 1 kW 60.000 RPM spindle.
- Water system for wet milling.
- Holder for ceramic machining.
- Special table.
- Special colour.
- Suction system.
- Furnace for zirconia sintering.
- Scanner with CAD.

**PMMA Zirconia Ceramics**

**Dental CAD/CAM SYSTEMS D20**

Dental CAD/CAM  
SYSTEMS

- D20 is capable of working 24 hours all year long and equipped with AC servo motors and High Speed Control system.
- Thanks to 6 pocket tool changer and tool setter it can work without any stop.
- Due to it's heavy design D20 can work without vibration during milling.
- The machine can be integrated with any scanning system which produce STL output.
- You can place 40-50 unit on a standard disc.
- The Machine has sister tool capability (It can change worn tool with spare).
- D20 can check tool lenght every 30 min and changes broken tool.
- Very compact design for Labs with limited space.

## D20
