

# D30

<b>Movements</b>	: 300 x 200 x 140 mm
<b>Control</b>	: High Speed YLS
<b>Axis motors</b>	: AC Servo
<b>Spindle power</b>	: 1 kW
<b>Spindle RPM</b>	: 60.000 rpm
<b>Number of blocks</b>	: 1 pcs
<b>Tool change</b>	: 12 pcs
<b>Tool lenght switch</b>	: Standard
<b>Weight</b>	: 360 kg
<b>Dimensions</b>	: 85 x 78 x 165 cm

**Options :**

- Holder for ceramic machining.
- Special colour.
- Suction system.
- Furnace for zirconia sintering.
- Scanner with CAD.
- 5 axis continuous system.

**PMMA Zirconia Ceramics CrCO Titanium**  
**Dental CAD/CAM SYSTEMS D30**

**yenadent**

## D30

- D30 is capable of working 24 hours all year long and equipped with AC servo motors and High Speed Control system.
- Thanks to 12 pocket tool changer and tool setter it can work without any stop.
- Due to it's heavy design D30 can mill all kind of materials including CrCo.
- The machine can be integrated with any scanning system which produce STL output.
- You can place 40-50 unit on a standard disc.
- The Machine has sister tool capability (It can change worn tool with spare).
- D30 can check tool lenght every 30 min and changes broken tool.
- 4 pcs rollers for easy replacement.
- Sending e-mail (At the end of the job or in case of error)
- Lamp for cutting area.
- Simple operation touch screen.
- Lineer guides and no backlash Ballscrews.
- Protection air flow for guides.
- Standard wet milling.
