

# D40

<b>Movements</b>	: 400 x 280 x 150 mm
<b>Control</b>	: High Speed YLS
<b>Axis motors</b>	: AC Servo
<b>Spindle power</b>	: 1 kW
<b>Spindle RPM</b>	: 60.000 rpm
<b>Number of blocks</b>	: 2 pcs
<b>Tool change</b>	: 20 pcs
<b>Tool lenght switch</b>	: Standard
<b>Weight</b>	: 440 kg
<b>Dimensions</b>	: 140 x 78 x 166 cm

**Options :**

- Holder for ceramic machining.
- Special colour.
- Suction system.
- Furnace for zirconia sintering.
- Scanner with CAD.
- 5 axis continuous system.
- Heavy design.

PMMA Zirconia Ceramics CrCO Titanium

## D40

- D40 is capable of working 24 hours all year long and equipped with AC servo motors and High Speed Control system.
- Thanks to 20 pocket tool changer and tool setter it can work without any stop.
- The machine can be integrated with any scanning system which produce STL output.
- You can place 40-50 unit on a standard disc.
- The Machine has sister tool capability (It can change worn tool with spare).
- D40 can check tool length every 30 min and changes broken tool.
- 4 pcs rollers for easy replacement.
- Due to its heavy design D40 can mill all kind of materials including CrCo.
- Sending e-mail (At the end of the job or in case of error)
- Lamp for cutting area.
- Simple operation touch screen.
- Linear guides and no backlash ballscrews.
- Protection air flow for guides.
- Standard wet milling.
